The Story & The Song **X-Ray Vision**

Thoughts to emphasize:

The Bible tells the story of God's people
God loves his people and they worship Him
The ABCs of Worship: Adore, Bow, Connect, Sacrifice

Bible Verse:

Isaiah 2:3 - "Come let us go up to the mountain of the Lord. He will teach us His ways, that we may walk in His paths."

Supplies needed:

Craft Center Activity

Let the children make an X-ray fish picture. Be sure that they do not color the fish - only the area around the fish. Color the fish bones black. If you "paint" the fish body with baby oil, the paper becomes more translucent, but even without that, you can hold up to the light to see the "x-ray" of the bones.

Fish pattern/bones pattern
Crayons/tape or stapler
Baby oil/cotton balls
Paper towels

Snack Center Activity

Talk about how a doctor can see our bones with an x-ray, but how God can see and know everything about us. Let the children eat the "funny bone" snacks.

Funny bone snack

Worksheet Center Activity

Worksheet - talk about how God can see everything and knows everything about us, not just the outside or our clothes.

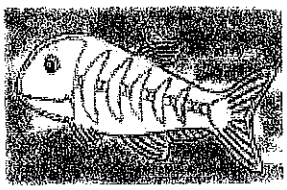
Make an X-ray Fish Picture -



What you will need: light weight computer printer paper (the cheaper the better), crayons, cooking oil or baby oil, paint brushes, paper towels, stapler or tape.

What to do:

1. Print out the **X-ray Fish Pattern** (**PDF Pattern**) and the x-ray fish **Bones Pattern** (**PDF Pattern**).
2. In class have your children color the area around the fish and the fish's fins. Tell them not to color the fish because he is an x-ray fish and you want to be able to see through him. Also have them color the fish's bones. When they are finished coloring, place the fish picture on a paper towel and let them paint the fish with oil. Tell them not to paint anywhere else on the picture. Wipe off any excess oil on the front and back of the picture. This will make the paper see-through. Place the fish pattern over the bones pattern and staple them together.
